

# ST. PETERSBURG SUMMER SCHOOL ON NETWORK ANALYSIS — 2017

10–16  
JULY

## Call for applications

Centre for German and European Studies (St. Petersburg State University — Bielefeld University), Institute for Design and Urban Studies (ITMO University), and the Council of Young Scientists of the Faculty of Sociology (St. Petersburg State University), invite BA, MA and PhD students, specializing in social and cultural studies and motivated to use network analysis, to take part in a set of introductory hands-on workshops and get acquainted with:

- concepts and methods of network analysis;
- key tools and techniques of social network analysis;
- basics of semantic and sociosemantic network analysis;
- principles and applications of Exponential Random Graph models.

**Prior knowledge of network analysis is not required.**

### TEACHERS

**Dr. Adina Nerghes**

VU University Amsterdam,  
Netherlands

**Dr. Johan Koskinen**

University of Manchester,  
UK

**Dr. Ju-Sung (Jay) Lee**

Erasmus University Rotterdam,  
Netherlands

### STUDENTS WILL GET

- aware of the opportunities network analysis provides for social and cultural studies
- basic practical skills in analyzing different types of networks using the existing software
- experience in working with network data — provided by the organizers or their own
- advice from the teachers and other participants on which approaches to select and on how to apply network analysis in their own projects
- feedback on their projects utilizing network analysis

**Working language:** English

**The organizers will provide:** lunches, coffee-breaks, participant packages and cultural program. All successful applicants will receive Visa support

**Travel and accommodation:** Participants are expected to come and lodge with their own funding, but the 3 students who provide best applications will get free accommodation

### APPLICATION GUIDELINES
